# PEPS RESTONIC HOSPITALITY MATTRESS'S CUTTING EDGE TECHNOLOGY

Embark on a journey of unparalleled comfort and innovation with PEPS. Our commitment to advancing sleep technology ensures that every mattress is a testament to modern engineering, providing a sleep experience that goes beyond the ordinary.

### Innerspring Systems:

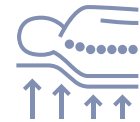

Choose from Bonnell or Pocketed Coil configurations, each offering diverse coil arrangements for superior support and comfort.

**Memory Foam:** Revel in the extraordinary as our mattresses utilize memory foam, adapting to your body's unique shape, delivering personalized comfort and effective pressure relief in the comfort layers.

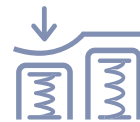

**Pocketed Coils:** Embrace personalized support with individually encased coils that move independently, providing targeted support while minimizing motion transfer.

**Zoned Support:** Elevate your sleep with zoned support systems that cater to distinct body areas, aligning with natural curves and promoting optimal spinal alignment.

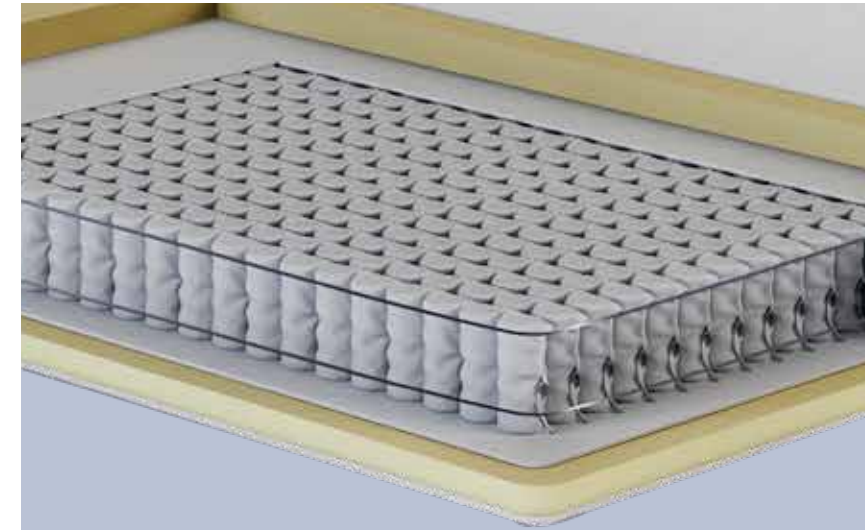

**Breathable Fabrics and Covers:** Unwind in the cool embrace of our mattresses featuring covers crafted from breathable, moisture-wicking materials, contributing to a refreshing and comfortable sleep environment.

**Zero Disturbance:** Our innovative technologies ensure minimal motion transfer, guaranteeing an uninterrupted and peaceful sleep for couples.

**Edge Support:** Indulge in stability like never before, providing a comfortable sitting posture and preventing any hint of sagging with our advanced edge support systems. It's a personalized touch to your mattress, ensuring a solid foundation for moments when you need to sit on the edge, offering both security and comfort.

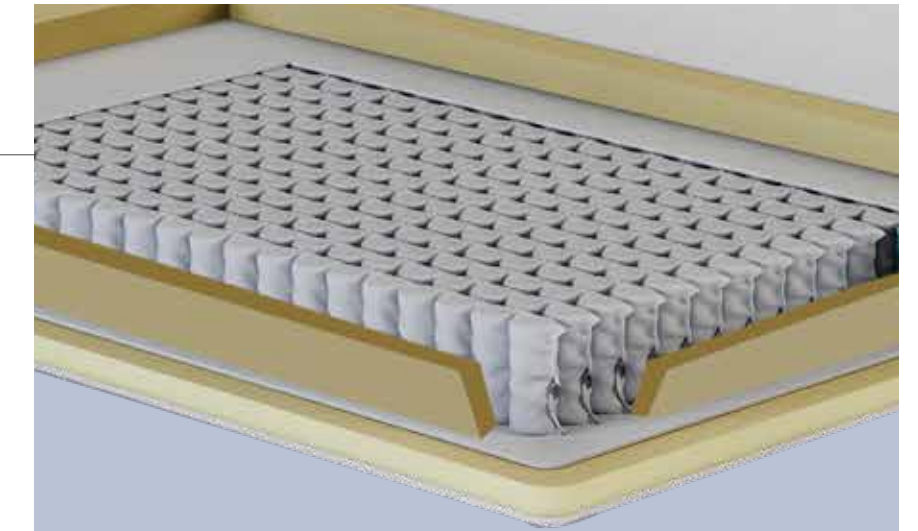

## BORDER WIRE TECHNOLOGY

Indulge in unparalleled support with our Border Wire Technology. Crafted from high carbon heavy gauge steel wire, it wraps around the entire perimeter of the innerspring frame, top to bottom. This seamless integration ensures every coil is securely connected, providing superior edge-to-edge support for a truly rejuvenating sleep experience.

## BOX OR FOAM ENCASEMENT

Experience the epitome of comfort and stability with our Box or Foam Encasement technology. We've reinforced all sides with high resilient foam, elevating not just support but also ensuring wrinkle-free edges. Say goodbye to sagging and hello to a mattress that maintains its pristine appearance, night after night.
